

DATA PROCESSING AND TECHNOLOGY SERVICES AGREEMENT

SYNTHETIC TEST CONTRACT — FOR SOFTWARE TESTING ONLY

This document is a fictional test artifact created to evaluate a contract-risk-analysis pipeline. It is not a real agreement and is not legal advice.

1. PROCESSING OF PERSONAL DATA

Processor shall process Personal Data only on documented instructions from Controller and only for the purposes necessary to provide the Services. Processor shall implement appropriate technical and organizational measures to protect Personal Data.

2. SECURITY INCIDENTS

Processor shall notify Controller without undue delay after becoming aware of a confirmed Security Incident involving Personal Data and shall provide information reasonably necessary for Controller to assess and respond to the incident.

3. SUBPROCESSORS

Processor may appoint subprocessors only with Controller's prior general authorization and shall remain responsible for the acts and omissions of its subprocessors in performing the Services.

4. AUDIT AND RECORDS

Controller may audit Processor's compliance with this Agreement once per calendar year upon reasonable notice. Controller may conduct an additional audit following a confirmed Security Incident or material regulatory inquiry.

5. INSURANCE

Processor shall maintain cyber liability insurance of at least \$10,000,000 and professional liability insurance of at least \$5,000,000 throughout the Term.

6. LIABILITY

The parties' aggregate liability arising from processing activities under this Agreement shall not exceed \$10,000,000, except to the extent liability cannot be limited under applicable law.

7. RETURN AND DELETION

Upon termination of the Services, Processor shall, at Controller's choice, return or securely delete Personal Data, except where retention is required by applicable law.

8. TERMINATION

Controller may terminate this Agreement for material breach if Processor fails to cure the breach within thirty days after written notice. Controller may also terminate immediately where continued processing

would violate applicable data-protection requirements.
